

RING STRAP SIZER

PRINT THIS PAGE AND FIND OUT YOUR RING SIZE

Print this page at 100%, do not scale to fit or shrink to fit!

1. Print out this document at 100% size. Measure the line below to make sure the scale is accurate.

2. Once you have ensured the scaling is accurate, cut out the band sizer above using a pair of scissors or a cutting knife.
3. Make a slit in the sizer where shown.
4. Wrap the band sizer around your finger, with the end of the band poking through the slit you've made.
5. The sizer should fit comfortably around your finger, adjust it if need be. Make sure you can remove the sizer and over your knuckle.
6. The letter indicated by the "Ring Size" in the slit indicates the ring size needed for your finger.
7. Be careful not to pull too tightly as this will give an inaccurate size.

Please note this is a guide only and if in any doubt before buying a ring please consult your Jeweller.
